DANGEROUS GOODS HANDLING

## International Ocean Freight

Working in tandem with some of the world's leading shipping lines, we do Logistics Cargo's Ocean freight services cover all major global markets, with an emphasis on developing new trade lanes.

Our strength is in offering our customers tailor-made solutions, with the best available schedules and transit times at competitive prices. We are capable of handling consignments of any size, with an assurance of expert handling by a team of experienced professionals

## Road Transport

We do Logistics Cargo's overland transportation services are customized to deliver reliable and on-time solutions – every time. Our exhaustive fleet of vehicles are available 24/7/365, and guarantees the quickest turnaround times to meet our customers business requirements.

In collaboration with our extensive network of reliable partners spread across the GCC countries and worldwide, we offer a comprehensive Door-to-Door or Door-to-Port Road Haulage service to cater to our customers distribution needs, while taking care of all the tedious customs and border formalities giving our customers peace of mind. We will provide you with the best advice and complete information on the various documentation requirements at each border/point of entry in to/out of any of the GCC countries as well as overseas destinations, offering our customers a one-stop-shop for cost efficient overland transport solutions.

## Customs Clearance

Customs clearance forms an essential part of the time-critical transport and logistics industries globally. To support our customers, our network of global customs experts, with local expertise of their respective countries play a crucial part in the seamless processes of our customers supply chains world-wide. Customs processes are even more critical in the U.A.E. given the ideal geographical location that positions the country as a transshipment hub in the middle of many trade-lanes. This not only supports commerce in general, but the transport and logistics industries which form a crucial part of the economy.

We do Logistics Cargo is a fully licensed Customs Broker in the U.A.E. represented at all Air, Sea, and Land Border points; geared to offer various types of customs clearances to its customers across various industry segments. Our fully fledged team of well-trained and experienced staff are competent in all local regulations pertaining to imports and exports of all types of goods from various parts of the world in to the and out of the UAE. From straight-forward import and export clearances to multi-model shipment clearances, our experts can provide the best advice at the right time to meet our customer's strict delivery and clearance schedules

## Warehousing and Distribution

We do Logistics Cargo manages warehousing facilities within DAFZA UAE, with all the facilities equipped with the latest machinery which allows the efficient management of various aspects of the supply chain requirements of our customers.

Staffed with a team of highly experienced professionals, well versed and trained in complete aspects of warehouse management, all our services are offered with complete security of our customers' inventory against threats of fire, pilferage, damage etc., giving our customers complete peace of mind.

## Dangerous Goods Handling

As a fully licensed and approved Dangerous Goods handler, we do Logistics Cargo has its own dedicated DG handling area within its warehouse confines, equipped with an expert team of dedicated and highly qualified DG personnel to handle all its customers DG requirements.

These facility is extended in view of providing timely handling of all DG shipments. The service offerings include repackaging of DG shipments as per IATA DG regulations for Air shipments, and IMO regulations for Ocean shipments and cover any and all DG or Hazardous materials classified commodities.

## CONNECTING YOU GLOBALLY

Having our partners in strategic countries enables us to have complete control of operations while delivering end -to-end service to our customers.

We continue to expand our global footprint, with a focus on emerging markets.

## DEDICATED TO QUALITY, HEALTH, SAFETY, & THE ENVIRONMENT

- A global approach to Quality, Health, Safety, and the Environment (QHSE) is at the forefront of our business.
- We aim to safeguard the health and safety of every employee, customer, and partner.
- We take all the necessary measures to ensure that everyone is aware of the responsibility to themselves, to their colleagues, and to the environment.
- Our minimum standard is to comply with all national applicable laws.
- We also train, where appropriate, partners and contractors to reduce risk to all.

## OUR CORPORATE SOCIAL RESPONSIBILITY

- Our corporate social responsibility (CSR) activities are based on two main themes:
  1. Sustainability in Logistics
  2. Supporting our Communities
- Our global team works with key stakeholders and partners to ensure that sustainability in logistics is a focus topic and that we all work together to make logistics more sustainable.
- Our country organizations work closely with their communities to help drive positive changes in the areas of education, equality, and sustainability.
